Global Ship Lease Reports Results for the Second Quarter of 2013

LONDON, Aug. 14, 2013 (GLOBE NEWSWIRE) -- Global Ship Lease, Inc. (NYSE:[GSL](#)), a containership charter owner, announced today its unaudited results for the three months and six months ended June 30, 2013.

Second Quarter and Year To Date Highlights

- Reported revenue of \$35.9 million for the second quarter 2013. Revenue for the six months ended June 30, 2013 was \$71.1 million
- Reported net income of \$10.1 million for the second quarter 2013, including a \$5.0 million non-cash interest rate derivative mark-to-market gain. For the six months ended June 30, 2013, net income was \$17.4 million, after a \$10.4 million non-cash mark-to-market gain.
- Generated \$22.9 million of Adjusted EBITDA⁽¹⁾ for the second quarter 2013. Adjusted EBITDA for the six months ended June 30, 2013 was \$45.1 million
- Excluding the non-cash mark-to-market items, normalized net income⁽¹⁾ was \$5.1 million for the second quarter 2013 and \$6.9 million for the six months ended June 30, 2013
- Repaid \$10.8 million debt during the second quarter of 2013 for a total repayment of \$199.0 million since the fourth quarter 2009
- Commenced one-year charters for two 4,113 TEU vessels at \$7,000 per vessel per day. The new charters expire on April 30, 2014 plus/minus 30 days at charterer's option

Ian Webber, Chief Executive Officer of Global Ship Lease, stated, "With utilization of our fully time chartered fleet of 17 vessels close to 100%, we generated Adjusted EBITDA of \$22.9 million in the second quarter 2013, allowing us to continue to de-lever the Company."

Mr. Webber continued, "We successfully re-chartered two vessels in the quarter, thereby maintaining a strong and uninterrupted revenue stream, supporting \$45.1 million of Adjusted EBITDA and \$25.6 million of debt repayment in the first half of 2013. With contracted revenue of approximately \$1 billion and an average remaining charter term of seven years, we continue to be well positioned to generate stable cash flow and further amortize our debt despite near-term industry challenges. As we continue to pay down debt, we are actively exploring opportunities to enhance our financial flexibility."

(1) Adjusted EBITDA and Normalized net income are non-US Generally Accepted Accounting Principles (US GAAP) measures, as explained further in this press release, and are considered by Global Ship Lease to be useful measures of its performance. Reconciliations of such non-GAAP measures to the interim unaudited financial information are provided in this Earnings Release.

Revenue and Utilization

The 17 vessel fleet generated revenue from fixed rate long-term time charters of \$35.9 million in the three months ended June 30, 2013, down \$3.4 million on revenue of \$39.2 million for the comparative period in 2012 due mainly to reduced revenue for two vessels following charter renewals at lower rates after the initial charters expired in September 2012, offset by less offhire, mainly from reduced levels of planned drydocking. There were 1,547 ownership days in the quarter, the same as the comparable period in 2012. The one day offhire in the three months ended June 30, 2013 gives a utilization of 99.9%. In the comparable period of 2012, there were 21 days offhire, including 12 for planned drydockings and nine unplanned days offhire, for utilization of 98.6%.

For the six months ended June 30, 2013, revenue was \$71.1 million, down \$6.5 million on revenue of \$77.6 million in the comparative period, mainly due to lower revenue from charter renewals and 17 fewer ownership days as 2012 was a leap year, offset by 43 days less offhire.

The table below shows fleet utilization for the three and six months ended June 30, 2013 and 2012 and for the years ended December 31, 2012, 2010 and 2009.

Days	Three months ended		Six months ended		Dec 31, 2012	Dec 31, 2011	Dec 31, 2010	Dec 31 2009
	June 30, 2013	June 30, 2012	June 30, 2013	June 30, 2012				
Ownership days	1,547	1,547	3,077	3,094	6,222	6,205	6,205	5,968

Utilization	99.9%	98.6%	99.1%	97.7%	98.4%	98.3%	99.9%	98.8%

There were no drydockings in the second quarter 2013. Two vessels were drydocked in the first quarter 2013 and one further vessel is scheduled to be drydocked in the fourth quarter. Two drydockings are scheduled for 2014, and none in 2015.

Vessel Operating Expenses

Vessel operating expenses, which include costs of crew, lubricating oil, spares and insurance, were \$11.6 million for the three months ended June 30, 2013. The average cost per ownership day in the quarter was \$7,504 up \$175 or 2.4% on \$7,329 for the rolling four quarters ended March 31, 2013. The second quarter 2013 average daily cost compares to \$7,253 for the comparative period, up \$251 or 3.5%. The increase is mostly for higher crew costs.

For the six months ended June 30, 2013 vessel operating expenses were \$23.2 million or an average of \$7,525 per day compared to \$22.9 million in the comparative period or \$7,394 per day.

Depreciation

Depreciation for the three months ended June 30, 2013 was \$10.1 million, compared to \$10.2 million in the comparative period.

Depreciation for the six months ended June 30, 2013 was \$20.2 million, compared to \$20.1 million in the comparative period.

General and Administrative Costs

General and administrative costs were \$1.5 million in the three months ended June 30, 2013, compared to \$1.3 million in the second quarter of 2012.

For the six months ended June 30, 2013, general and administrative costs were \$3.1 million compared to \$2.9 million for 2012. The reduction is due mainly to lower legal and professional fees.

Other Operating Income

Other operating income in the three months ended June 30, 2013 was \$0.2 million, compared to \$0.1 million in the second

quarter 2012.

For the six months ended June 30, 2013, other operating income was \$0.2 million, the same as for the comparative period.

Adjusted EBITDA

As a result of the above, Adjusted EBITDA was \$22.9 million for the three months ended June 30, 2013 down from \$26.8 million for the three months ended June 30, 2012.

Adjusted EBITDA for the six months ended June 30, 2013 was \$45.1 million, compared to \$52.0 million for the comparative period.

Interest Expense

Interest expense, excluding the effect of interest rate derivatives which do not qualify for hedge accounting, for the three months ended June 30, 2013 was \$4.8 million. The Company's borrowings under its credit facility averaged \$410.9 million during the three months ended June 30, 2013. There were \$45.0 million preferred shares throughout the period giving total average borrowings through the three months ended June 30, 2013 of \$455.9 million. Interest expense in the comparative period in 2012 was \$5.3 million on average borrowings, including the preferred shares, of \$519.8 million.

For the six months ended June 30, 2013, interest expense, excluding the effect of interest rate derivatives which do not qualify for hedge accounting, was \$9.7 million. The Company's borrowings under its credit facility and including the \$45.0 million preferred shares, averaged \$463.2 million during the six months ended June 30, 2013. Interest expense for the six months ended June 30, 2012 was \$10.8 million based on average borrowings in that period, including the preferred shares, of \$525.7 million.

Interest income for the three and six months ended June 30, 2013 and 2012 was not material.

Change in Fair Value of Financial Instruments

The Company hedges its interest rate exposure by entering into derivatives that swap floating rate debt for fixed rate debt to provide long-term stability and predictability to cash flows. As these hedges do not qualify for hedge accounting under US GAAP, the outstanding hedges are marked to market at each period end with any change in the fair value being booked to the income and expenditure account. The Company's derivative hedging instruments gave a realized loss of \$2.9 million in the three months ended June 30, 2013 for settlements of swaps in the period, as current LIBOR rates are lower than the average fixed rates. Further, there was a \$5.0 million unrealized gain for revaluation of the balance sheet position given current LIBOR and movements in the forward curve for interest rates. This compares to a realized loss of \$4.6 million and an unrealized gain of \$0.9 million in the three months ended June 30, 2012.

For the six months ended June 30, 2013, the realized loss from hedges was \$8.3 million and the unrealized gain was \$10.4 million. This compares to a realized loss of \$9.1 million and an unrealized gain of \$3.6 million in the six months ended June 30, 2012.

At June 30, 2013, interest rate derivatives totaled \$327.0 million against floating rate debt of \$445.1 million, including the preferred shares. The total mark-to-market unrealized loss recognized as a liability on the balance sheet at June 30, 2013 was \$25.1 million.

Unrealized mark-to-market adjustments have no impact on operating performance or cash generation in the period reported.

Taxation

Taxation for the three months ended June 30, 2013 was \$16,000, compared to \$78,000 in the second quarter of 2012.

Taxation for the six months ended June 30, 2013 was \$39,000, compared to \$68,000 for the comparative period in 2012.

Net Income/Loss

Net income for the three months ended June 30, 2013 was \$10.1 million after \$5.0 million non-cash interest rate derivative mark-to-market gain. For the three months ended June 30, 2012 net income was \$7.5 million after the \$0.9 million non-cash interest rate derivative mark-to-market gain. Normalized net income, which excludes the effect of the non-cash interest rate derivative mark-to-market gains and losses was \$5.1 million for the three months ended June 30, 2013 and \$6.6 million for the three months ended June 30, 2012.

Net income was \$17.4 million for the six months ended June 30, 2013 after a \$10.4 million non-cash interest rate derivative mark-to-market gain. For the six months ended June 30, 2012, net income was \$15.5 million after the \$3.6 million non-cash interest rate derivative mark-to-market gain. Normalized net income was \$6.9 million for the six months ended June 30, 2013 and \$11.9 million for the six months ended June 30, 2012.

Credit Facility

The container shipping industry has been experiencing a significant cyclical downturn. As a consequence, there has been a continued decline in charter free market values of containerships since mid- 2012. While the Company's stable business model largely insulates it from volatility in the freight and charter markets, a covenant in the credit facility with respect to the Leverage Ratio, which is the ratio of outstanding drawings under the credit facility and the aggregate charter free market value of the secured vessels, causes the Company to be sensitive to significant declines in vessel values. Under the terms of the credit facility, the Leverage Ratio cannot exceed 75%. The Leverage Ratio has little impact on the Company's operating performance as cash flows are largely predictable under its business model.

In anticipation of the scheduled test of the Leverage Ratio as at November 30, 2012 when the Company expected that the Leverage Ratio would be between 75% and 90%, the Company agreed with its lenders to waive the requirement to perform the Leverage Ratio test until December 1, 2014. Under the terms of the waiver, the fixed interest margin to be paid over LIBOR increased to 3.75%, prepayments became based on cash flow rather than a fixed amount of \$10 million per quarter, and dividends on common shares cannot be paid.

In the three months ended June 30, 2013 a total of \$10.8 million of debt was repaid leaving a balance outstanding of \$400.1 million.

Dividend

Global Ship Lease is not currently able to pay a dividend on common shares under the terms of the credit facility waiver.

About Global Ship Lease

Global Ship Lease is a containership charter owner. Incorporated in the Marshall Islands, Global Ship Lease commenced operations in December 2007 with a business of owning and chartering out containerships under long-term, fixed rate charters to top tier container liner companies. Global Ship Lease owns 17 vessels with a total capacity of 66,349 TEU with an average age, weighted by TEU capacity, at June 30, 2013 of 9.3 years. All of the current vessels are fixed on Charters to CMA CGM with an average remaining term of 5.7 years, or 7.0 years on a weighted basis.

Reconciliation of Non-U.S. GAAP Financial Measures

A. Adjusted EBITDA

Adjusted EBITDA represents Net income (loss) before interest income and expense including amortization of deferred finance costs, realized and unrealized gain (loss) on derivatives, income taxes, depreciation, amortization and impairment charges. Adjusted EBITDA is a non-US GAAP quantitative measure used to assist in the assessment of the Company's ability to generate cash from its operations. We believe that the presentation of Adjusted EBITDA is useful to investors because it is frequently used by securities analysts, investors and other interested parties in the evaluation of companies in our industry. Adjusted EBITDA is not defined in US GAAP and should not be considered to be an alternate to Net income (loss) or any other financial metric required by such accounting principles.

B. Normalized net income

Normalized net income represents Net income (loss) adjusted for the unrealized gain (loss) on derivatives, the accelerated write off of a portion of deferred financing costs and impairment charges. Normalized net income is a non-GAAP quantitative measure which we believe will assist investors and analysts who often adjust reported net income for non-operating items such as change in fair value of derivatives to eliminate the effect of non cash non-operating items that do not affect operating performance or cash generated. Normalized net income is not defined in US GAAP and should not be considered to be an alternate to Net income (loss) or any other financial metric required by such accounting principles.
